

FLOOR - PAINTS.

We offer Floor Paints of Superb Quality. THEY combine natural minerals with hard-drying liquids. THEY are finely ground and thoroughly mixed. THEY cover well and dry hard in twelve hours. THEY stand exposure to weather and the wear of washing, hence are especially applicable for Piazza and Kitchen floors. The following Colors in Stock:

LIGHT RED, DARK YELLOW
STONE, LIGHT YELLOW
SLATE AND LIGHT
BROWN.

THE NORTH CAROLINA STEEL AND IRON CO.

GREENSBORO, N. C.

OFFICERS: President, James A. Odell; Vice-President, Julian S. Carr; General Manager, J. J. Newman; Treasurer,
S. H. Wiley; Secretary, Chas. D. Benbow; Financial Agent, Robert T. Gray; Attorney, Theo. F. Klutz, Greensboro,
AND FINANCE COMMITTEE—James A. Odell, D. W. O. Benbow, Julius A. Gray, Greensboro, N. C.;
Second Vice-President R. & D. R. R. Co., Raleigh; James A. Odell, President Odell Hardware Co., Greens-
boro, N. C.; Julius A. Gray, President Cape Fear & Yadkin Valley Railway Company, Greensboro,
N. C.; Theo. F. Klutz, Attorney-at-Law, and President Yadkin Railroad Company, Salisbury,
N. C.; Julian S. Carr, President Blackwell's Durham Tobacco Company, Durham, N. C.;
D. W. O. Benbow, Greensboro, N. C., Robert T. Gray, Attorney-at-Law, Raleigh, N. C.

The Company owns the Famous "Ore Hill" Property,
in Chatham Co., N. C., that has been noted as an iron prop-
erty for more than a century. Ores from it were used in the
manufacture of iron during the Revolutionary war. During
the late civil war the Confederate Government selected this
locality as the site of large iron and ordnance works, because
of the exceptionally High Grade of its Ores. The lack of
railroad facilities has made impossible, hitherto, the profitable
utilization of these ores on any large scale. The locality is
now, however, made accessible by the Cape Fear and Yadkin
Valley Railroad, which passes through the property.
Some of the most noted iron men in America have examined
and reported on these ores, and so far as the directors of this
company know, there has never been an expert report on it
that was not highly favorable. Prof. Chas. D. Wilber, inspec-
tor of mines and mineral lands, formerly State Geologist of Illi-
nois and mining expert for the Northern Pacific R. R., visited
Ore Hill in 1884. Extracts from his report and the opinions of
Dr. E. Emmons, formerly State Geologist of North Carolina;
Prof. W. C. Kerr, State Geologist; Prof. F. A. Gentz, of Phila-
delphia; S. A. Richards, formerly Superintendent of the Joliet
Steel Company; Mr. Thomas Graham, a prominent iron manu-
facturer of Philadelphia, and others, are published in the Com-
pany's prospectus.
The "Manufacturer's Record," of Baltimore, having learned
of the proposed organization of this company, investigated,
on its own account, the Ore Hill Tract. The report of the ex-
pert, Mr. Thomas P. Williams, M. E., is also given in the
prospectus.

The company recently employed Mr. Frederick H. Smith, of
Baltimore, a noted mining engineer and mineralogist, to ex-
amine the property. His report confirmed all that had been
claimed, and he advised the company to build the furnaces.
Mr. Smith is a man of such eminence in his profession that it
would be superfluous to make any mention of the value of his
report. He is a member of the American Society of Civil En-
gineers, a member of the American Institute of Mining En-
gineers.
Coke for the furnaces will be brought from Pocahontas, 945
miles, by the Norfolk & Western and Cape Fear & Yadkin
Railroads, which will connect at the State line near Mount
Airy, N. C.
In the organization of the company the projectors had in
view:
FIRST—The building of furnaces for the manufacture of iron
and steel and ultimately the building of rolling mills and other
industries for the utilization of the product of the furnaces.
SECOND—The acquisition of a considerable area of land
around the locality that might be selected as the site of the
furnaces, in order that the company might itself enjoy the re-
sults of its own work, by getting the benefit of the increase in
real estate values that would follow the establishment of fur-
naces and other industries.
THIRD—The inauguration of a general development and
town-building enterprise, starting with an attempt to secure
the location on its property, of iron, wood, textile and other
industries, thus bringing together an aggregation of factories
and stores, and a continually increasing population, with the
resulting need for land for business and resident purposes.

Greensboro, the location of the North Carolina Steel and Iron Works, has a population now of 7,000, is the capital of Guilford
County. It is the junction of three railroads. It is most favorably situated and climate genial
and healthful. It has already 37 industrial institutions and 100 wholesale and retail
stores. During the past five years Greensboro has doubled in population.
No effort has ever been made to stimulate its growth beyond the
usual exertions of legitimate business. It is beyond all
question the most central, healthy and desirable
for all kinds of trade and manufactur-
ing as any spot in the
United States.

TOWN SITE PROPERTY.

Before announcing its purpose, the Company, through its agents, secured options on about 2,500 acres of very desirable
property adjacent to Greensboro, some of it being within the corporate limits, and the whole of it being in
an almost solid body. About 1,500 acres have already been purchased, and the remainder
is being taken up as the options expire. The whole of it has been secured at an average
price of \$35.00 an acre. This is no more than has been paid for the town
site lands on which most of the industrial towns of the South
have been built up, and in comparison with which
this has the immeasurable advantages of

EXTENSIVE RAILROAD CONNECTIONS

And facilities unexcelled by any of them; an active, progressive town of 7,000 to start with. Water-works, gas works,
electric light works, paved streets, churches and schools, elegant houses, an established society,
and all the attractions that pertain to an old community.

THE SURVEY of the Town Lots is now progressing, and it is expected that the Company will have a sale of lots in May.
Extra inducements will be offered by the Company to any kind of industry that will locate on
the Company's lands, and

MANUFACTURING SITES

Will be donated. Greensboro is destined to equal any of the Southern towns in push, energy and success. It is confi-
dently expected that there will be 25,000 inhabitants here in five years.

LAND SALES—Judging from the experience of other development enterprises, it would seem to be within a reasonable and
and conservative limit to expect within two years to realize from sales of lots, covering a compara-
tively small part of the total area of land purchased, an aggregate sum

Equal to the Capital Stock of the Company.

This, when added to the expected profit from the Company's furnaces and other works, makes the opening for the
investment of capital one of the most inviting that has been presented
to the public since the beginning of the present
industrial era in the South.

THE COMPANY WILL BUILD AT ONCE TWO 75 TON FURNACES,

—ONE TO MAKE—

BESSEMER IRON AND THE OTHER MILL AND FOUNDRY IRON.

SUCCESS—There is no doubt as to the success of the Company. This is purely a North Carolina industry, and
there is no reason why the State cannot become one of the great iron producers of
the country. People of North Carolina! Look at what your sister
States are doing. You can do as well, if not better,
if you will only have confidence in what you
have got. Subscribe liberally to the
stock and trust the men who
are at the head of the
Company.

Their names alone is a sufficient guarantee as to the reliability and successful management; this, also, backed by the foster-
ing interests of the Cape Fear & Yadkin Valley, and Richmond & Danville Railroads.

THE CAPITAL STOCK OF THE COMPANY IS \$1,000,000.

Large subscriptions have already been received at par. None of the stock will be sold at less than par. The proceeds will
go into the Treasury, to be used for development purposes, with a view to making valuable the company
lands. It is probable that when one-half the stock (\$500,000) has been subscribed
for, the books will be closed until after the first land sale. For
particulars as to time of payment, &c., address

THE COMPANY,

GREENSBORO, N. C.
